

Mission

The Evergreen project team's assures that EDRM content evolves with changing requirements, industry knowledge and case law.

In 2009-2010, Evergreen reorganized into 2 working groups. The Content Group and the Standardize Group.

Accomplishments from the 2009-2010 EDRM year include:

Content Group

The Content working group is responsible for updating and adding content to all nodes on the EDRM Framework.

Accomplishments:

- Prepared and published consistent Second Level Diagrams
- Updated and added content

Standardize Group

Accomplishments:

- Reviewed structure of all current content to standardize the organizational flow of the “final” Evergreen content should be consistent across all groups
- Worked with web master to streamline EDRM.net. and promote user input

We've made it easier for everyone to use www.EDRM.net!

Use it!

Everyone is a user. Go to the site, navigate, download, comment on posts! We have even created a permanent area for comments called **Open Mic**. Find it under **Posts** on the [Home Page tab ribbon](#).

Subscribe!

Anyone can subscribe to receive a logon and emails of new posts. Logon and create posts and comments.

Participate!

All EDRM members already have a site id and password. Logon and create posts and comments. Signup to receive emails of new posts.

Posts

Articles, notices and information about EDRM projects, events and related ESI topics. Logged in Subscribers and Participants can create posts via their **Dashboard** link on the upper right of the Home Page. Posts can be public or private (viewable by EDRM Participants, only).

Comments

Ideas, question, updates, opinions attached to pages or posts. Create a comment by filling in the comment screen at the bottom of all pages and posts.
