

### **Charter:**

**The goal of the EDRM Search project is to provide a framework for defining and managing various aspects of Search as applied to E-Discovery workflow. E-Discovery practitioners use several Search techniques for collecting, culling, filtering, locating and classifying ESI. By specifying the type of search, its behavior and expected results, the uncertainty and incompleteness of Search can be addressed.**

### **Accomplishments:**

- **Created the EDRM Search Guide – An 80 page comprehensive search guide release to public**
- **9 Problem Profiles in Development**
- **Started with 28 members and we now have over 90 members**
- **Diverse Membership including technology vendors, in-house counsel, lawfirms, consultants, government, corporations, and individuals**
- **EDRM Search group meets routinely on a bi-weekly basis**

### **Leadership:**

- **EDRM Search Co-Leads: Venkat Rangan and Jason Robman**
- **EDRM Search Documentation Sub-Group Lead: Karen Williams**
- **EDRM Technology Sub-Group Co-Leads: Venkat Rangan and Sundar Veliah**
